

Prevention measures at Hopewell Valley Vineyards

- All employees are required to wash hands frequently as always.
- All surfaces in our kitchen are wiped with 90% alcohol frequently.
- All frequently touched surfaces such knobs, counters, light switches, food equipment handles, bathroom doors, etc. are wiped with 90% alcohol as suggested by **Center for Disease Control** and/or the **World Health Organization**.
- All employees displaying any symptoms of respiratory conditions (fever, sneezing, coughing etc.) are required to stay home.
- All employees are supplied with a container of disinfectant to keep their phone clean and to disinfect any surface around them as needed.
- We request that our patrons and employees do not lean against bar counters in order to keep a safe distance among people.
- Larger wine tasting groups may be asked to be served at a table versus at the wine counter.
- Our glasses are washed in a high temperature dishwasher.
- Our dishes are washed and disinfected.
- Our pizza and pizza dishes are cooked in our wood fired oven at a temperature exceeding 650 degrees.
- It is known that good wine can help stave off insanity during trying times!
